**Energias
renováveis e o uso
múltiplo do espaço
marítimo nacional**

**OCEANIC
RENEWABLES
SUMMIT**

The Maritime Spatial Plan: a multi-use challenge

common uses

**fishing
maritime transport
recreational &
bathing uses**

private uses

**aquaculture
reef complexes
renewable energy
recreational**

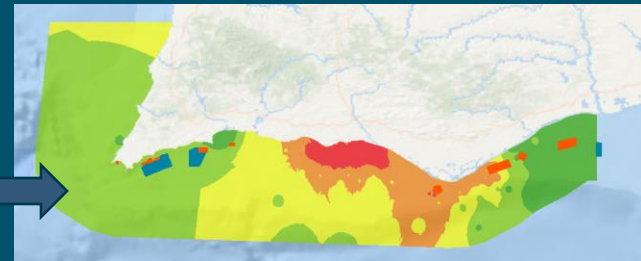

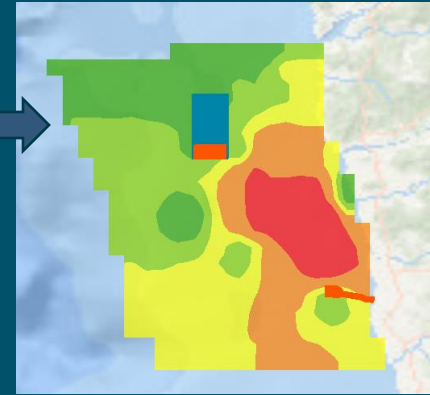

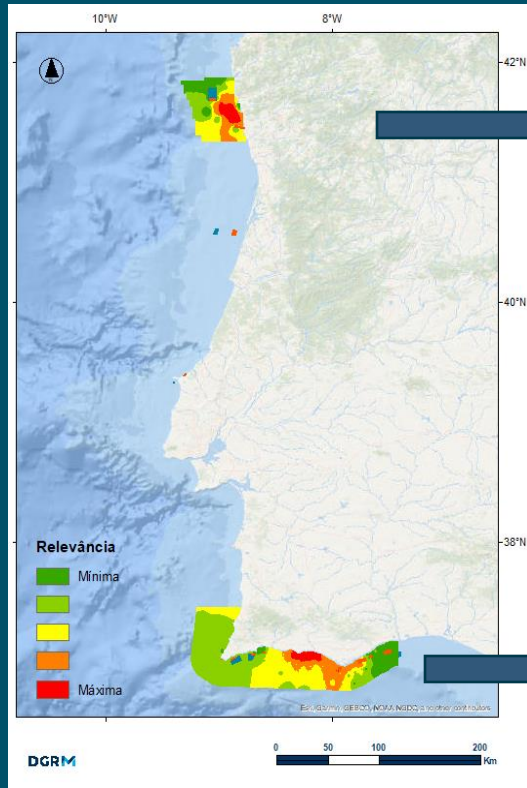

**60% of public consultation contributions
refer to strong concerns about:**

**Environmental impacts on the marine
environment**

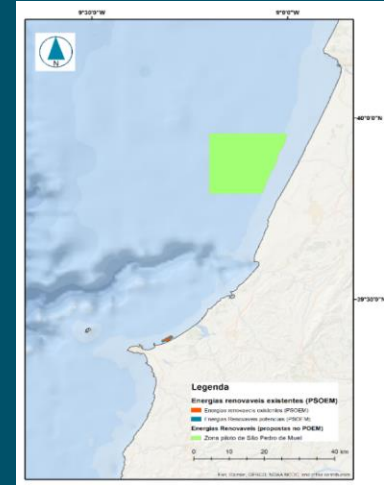

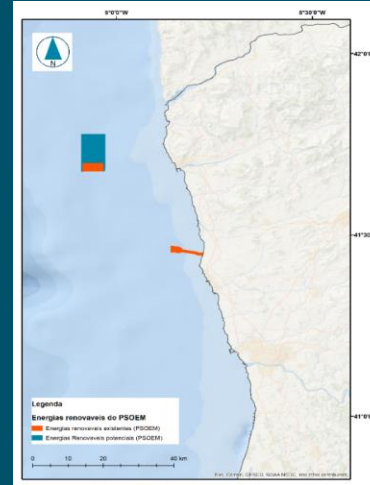

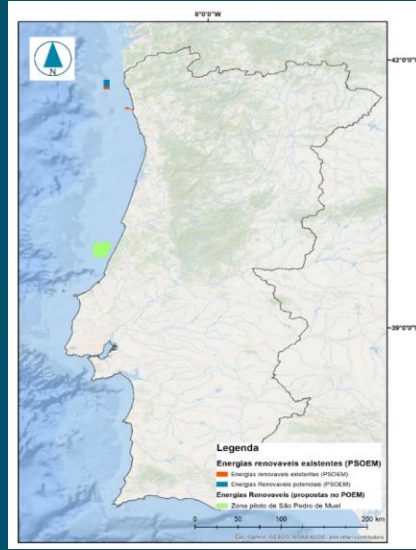

**Apprehension regarding connection to
national electric grid issues**

Impacts on territorial planning

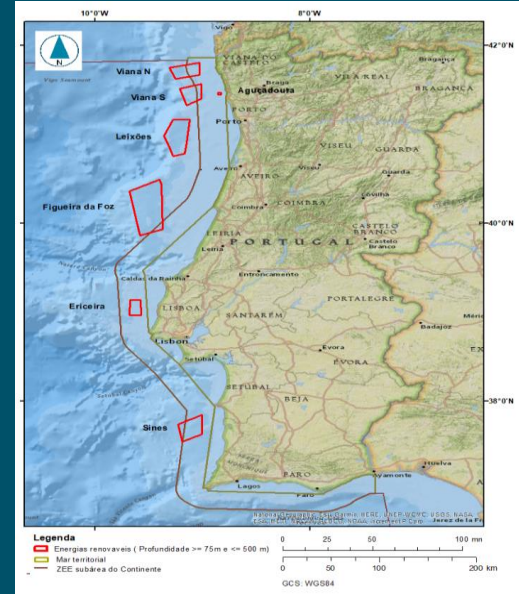

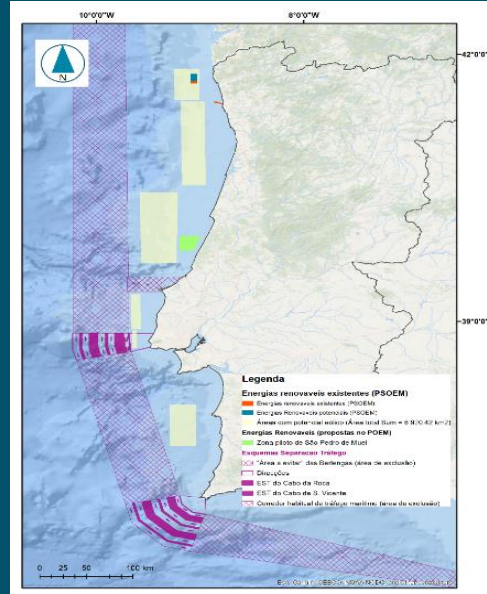

NOW
25 MW

New spaces for 10 GW

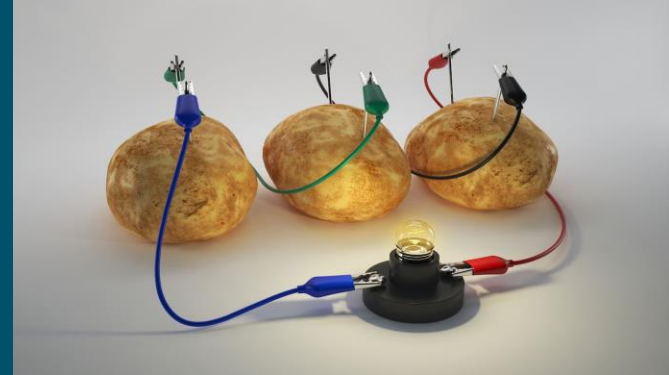

Fish?

or

Electrons?

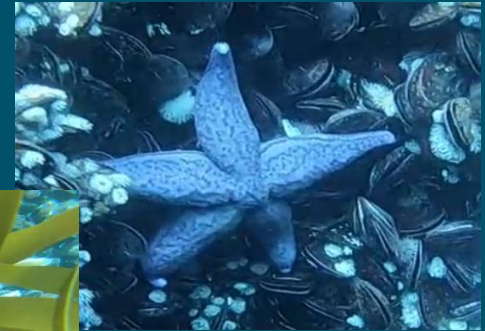

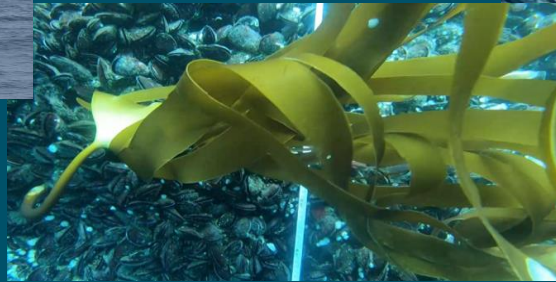

private uses **are not** exclusive uses

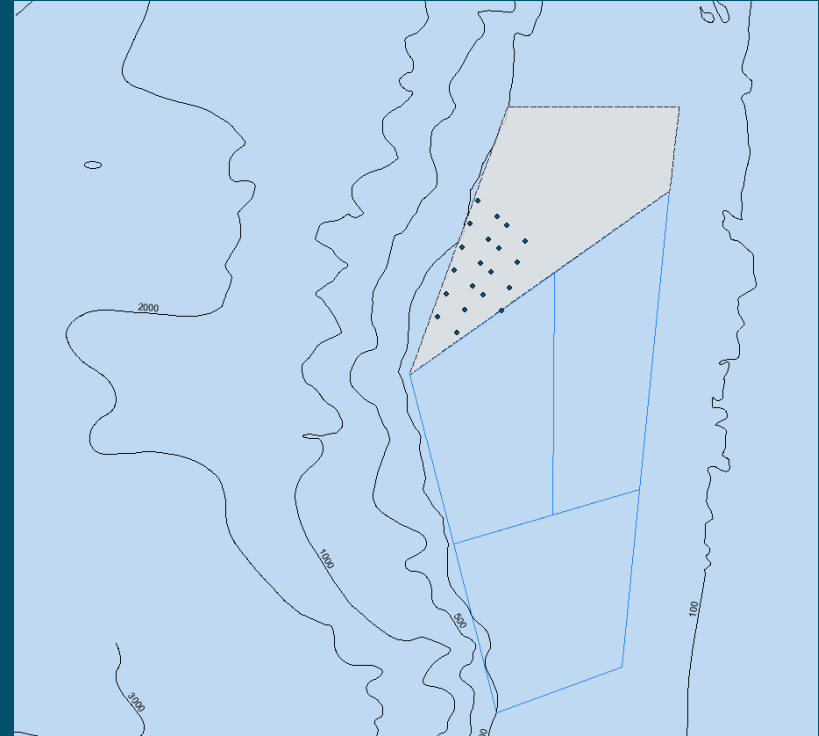

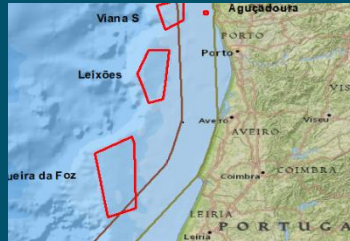

Pilot project

How to fish?
When to fish?
Where to fish?

Salmon & energy

Maritime Spatial Planning and concessions for offshore renewable energy

multiple use of national maritime space

sustainability of the marine environment

private use superior interest to common use

The background features a dark teal base with two large, wavy, overlapping shapes. The upper shape is a lighter teal color, and the lower shape is a vibrant blue. Both shapes have a soft, gradient-like appearance and curve across the frame.
